

Uh oh, Magellan is missing! Quick, help Elliot find him before Elliot's dad realizes there's a penguin on the loose!

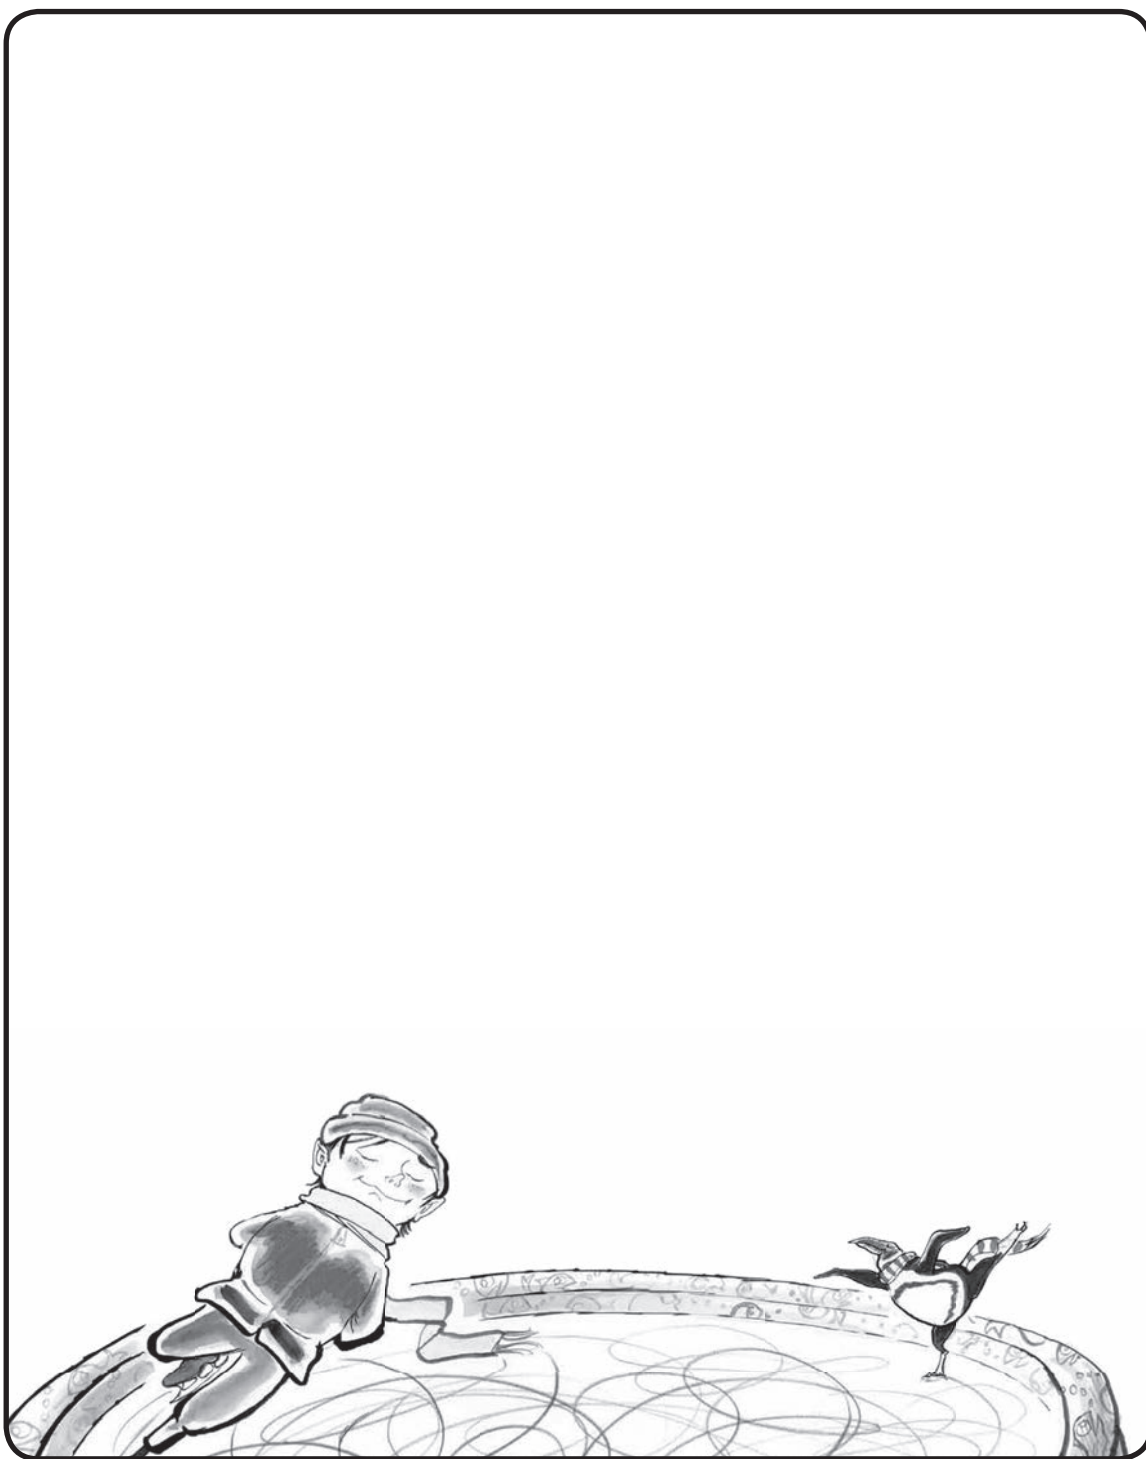

Penguins have evolved and adapted to a very cold habitat. A habitat is where an animal lives, and important factors of a habitat are the weather, the location, the plants, and the other animals living in the area.

Can you match the animals below to their habitats?  
Draw a line from the animal to the place in the world where it lives.

Answers: Penguin/Antarctica, Bald Eagle/North America, Kangaroo/Australia, Panda/Asia, Lion/Africa

Magellan and Elliot are best friends. They like to go to the library, share snacks, and go ice skating together.  
Draw a picture of you and your best friend.  
What's your favorite thing to do together?

It's fun to think about having a penguin or a giant tortoise for a pet, but it would be hard to take care of one every day. Some animals are better at being pets than others.

Below, circle the animals that are good for keeping as pets.
