SURVIVAL AND THE STRENGTH OF THE HUMAN SPIRIT FROM 9/11 SURVIVORS

The book—now available wherever books and ebooks are sold

Hailed by *Kirkus* as “a thoughtful and uplifting collection”

Each year, every year, on the anniversary of the 9/11 attacks, Jim Whitaker and his film crew interviewed eight people who were directly affected by the events of 9/11 for the documentary *Rebirth*. Based on this film, the book *Project Rebirth* documents the powerful rediscovery stories of these individuals—both those featured in the film and those whose stories did not make it onto celluloid.

From a teenager who lost his mother just as he stepped into the world of adulthood, to the woman who lost her fiancé just on the verge of her wedding, to the man who lost his best friends and struggled with his own guilt over surviving, *Project Rebirth* is a book about the beauty and resilience of the human spirit.
