

RESEARCH! WE SHOULD GOOGLE ENDANGERED SPECIES AND THEIR HABITATS THEN WE CAN DECIDE ON WHICH ONES TO FOCUS ON.

YEAH, AND WE COULD SEE IF THERE ARE ANY OTHER ENDANGERED SPECIES GAMES OUT THERE ALREADY.

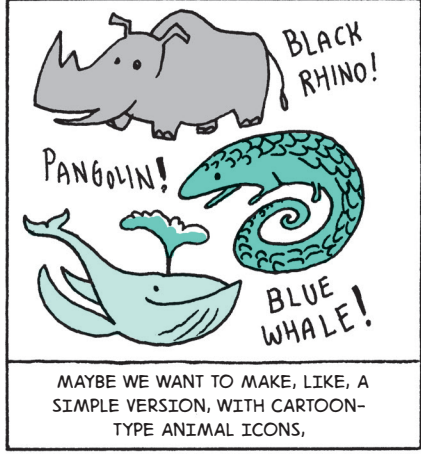

OOH, WE CAN START A FILE OF COOL PICTURES OF ANIMALS.

HOW ARE WE GOING TO DRAW ALL THESE HABITATS? DO THEY HAVE TO BE LIKE EXACTLY LIKE THE REAL-WORLD ENVIRONMENTS?

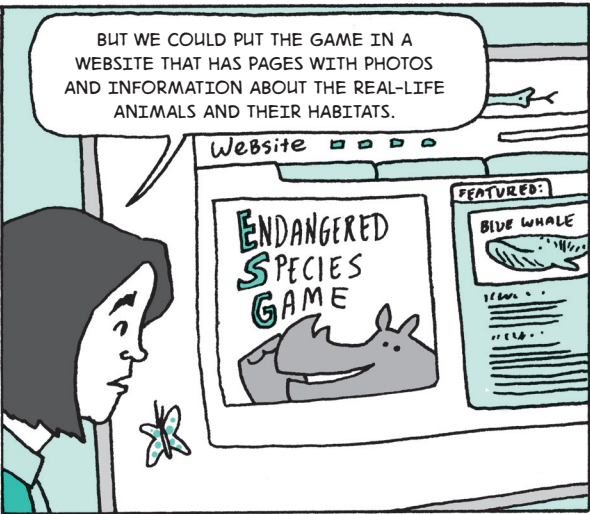

WHAT ABOUT THE ANIMALS? THAT COULD BE KIND OF TRICKY.

BLACK RHINO!
PENGUIN!
BLUE WHALE!

MAYBE WE WANT TO MAKE, LIKE, A SIMPLE VERSION, WITH CARTOON-TYPE ANIMAL ICONS,

BUT WE COULD PUT THE GAME IN A WEBSITE THAT HAS PAGES WITH PHOTOS AND INFORMATION ABOUT THE REAL-LIFE ANIMALS AND THEIR HABITATS.

THAT'S A GREAT IDEA. SO WE COULD MAKE THE GAME WITH SCRATCH AND MAYBE THE WEBSITE IN HTML.
