

WISDOM BUILDER #18

EXPAND YOUR CAREER OPTIONS

Another way to expand your career possibilities is to consider a variety of jobs within a particular field or to consider related fields. On the worksheet below or in your notebook, try listing up to three industries or fields you might be interested in. Then list several places where you could work within those fields. Finally, indicate possible job titles or functions you would be interested in within those industries. The first one is filled out as an example. If you're having trouble identifying the locations or titles, keep researching!
